The slow and even pace at which claims deng through congress harlong been a matter of public record and private comment. The claim of the Sibbry heirs, which was discussed and again postponed in the house of representatives a few days ago furnishes an illustration of the course of such chaims. When the was account of the course of the cour broke out Sibley preferred state rights to patent rights and went over to the ranks of the Confederacy Dur sg the war 40 000 of his tents were used by the government and his share of the royalty was configured so to speak though his part ner in the tent business succeeded afterward in celiceting half the royalty. college he came out dumins in
